## MATHNASIUM™ The Math Learning Center

### Transform Your Child's Summer!

Did you know that kids can actually lose math skills while school is out? Studies have shown that over summer vacation, students can lose about two and a half months of math skills learned during the school year. At Mathnasium, we prevent the summer slide with a balance of learning and fun, giving kids an edge for the next school year and beyond!

We believe that every child has the ability to be successful in math — it's a matter of teaching the way that makes sense to them. When math makes sense, kids excel — whether they're behind or eager to get ahead!

Call us today to schedule a free trial!
